Teams accepted into the Semi-final Round will have a physical venture exhibit **after** presentation. Teams must prepare the contents of the exhibit once they have confirmed their place. This includes:

1. Full and official names of the venture and their represented institution.

4. Email of contact person for those interested in connecting.

This is for the benefit of the teams in promoting their ventures to investors and judges.

## VIII. JUDGING CRITERIA

The judging criteria will be heavily weighted on the commercial potential of the business and the credibility of the stated claims, projections, and assumptions. Whilst new-to-the-world products/inventions are not necessary, teams should clearly demonstrate the competitive advantage of their product or service, which may include intellectual property protection issues.

Judges look more favorably upon growth-oriented businesses catering to large markets.

Each round will be evaluated via the following:

1. The First Round will be **solely** evaluated on the submitted Pitch Deck while the (optional) Video Pitch acts as supplementary information.
2. The Semi-final Round will be evaluated on the submitted Written Business Plan (40%) and overall Business Viability (60%), as expressed in the Formal Oral Presentation. The Venture Exhibit will also be considered.
3. The Sustainability Award, Play-off and Final Rounds will be **solely** evaluated on overall Business Viability, as expressed in the submitted Written Business Plan, Formal Oral Presentation and Venture Exhibit.

NOTE: Raw scores are only an indication of how judges will rank each team in their groups. These ranks will be applied during the deliberation phase to select the winner(s).

In all cases, the judges' decisions are final.

## IX. COVID-19 Preparations and Contingencies

As we plan to hold the competition physically on-site, participants must adhere to the following requirements:

1. Be fully vaccinated
2. Be open to take required COVID tests
3. Be willing to show documentation to verify any of the points above when coming on-site
4. Comply with any on-site requirements such as keeping masks on at all times, not forming a gathering over a stated limit of people, and staying an appropriate distance apart from others

Should a physically held competition not be possible, we reserve the right to adjust the competition in the following manner:

1. Presentations of the teams' business plans will be done via Zoom for the main competition rounds, including the 60-second pitches
2. Venture exhibits will **NOT** count as part of scoring of the competition but may instead become an additional source of information for the audience instead
3. Platform testing for any online services used will be set up and carried out. Should there be any need to improve a participating team's ability to compete virtually (e.g. network connection, video/audio quality, lighting, etc.), they must try to do so to the best of their ability.

Due to the uncertainty of the situation, any information regarding the situation will be communicated to the teams as any necessary responses are formulated by the organizers.
